

Assignment No: 03

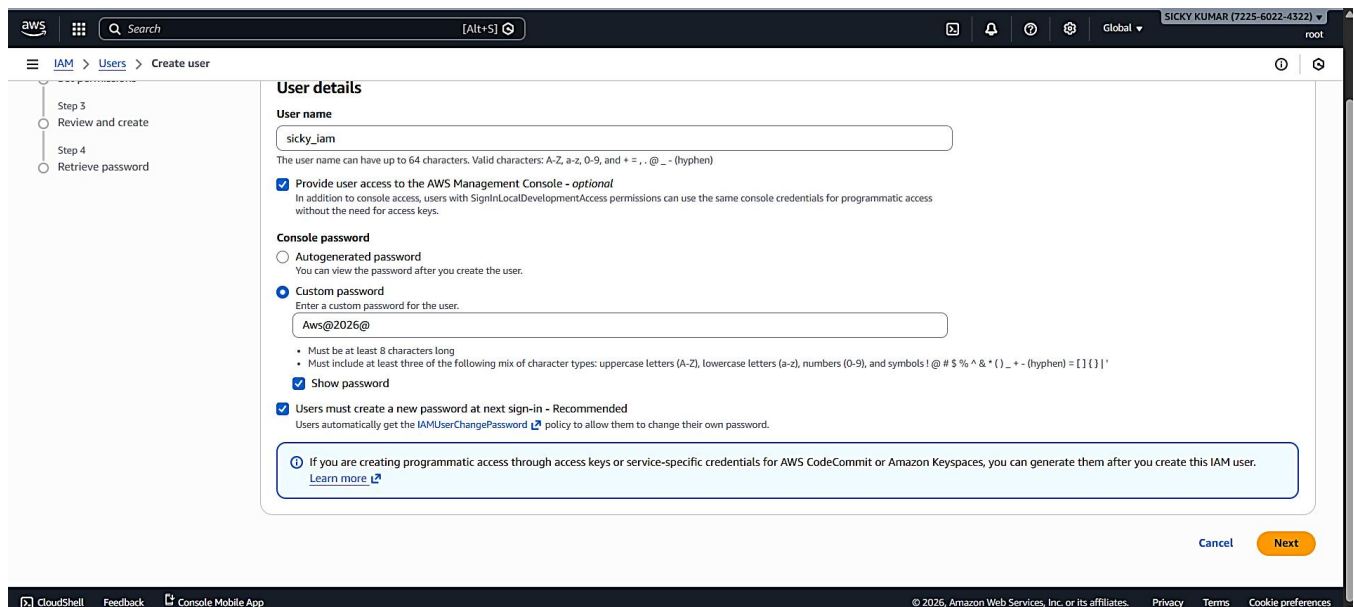

Problem Statement: Create iam User And Give Full Access To S3.

Solution:

At first, we go to IAM section, then we click on the user from the left pane;

Then we need to create a new user, need to give user name and custom password and if we want we can tick the settings to change it after next immediate sign-in;

After that, we need to set all the permissions, like which tools to use.. which are restricted for the user, we can also add it to a existing user group or we can create a new one.

The screenshot shows the 'Set permissions' step of the AWS IAM 'Create user' wizard. The left sidebar indicates the current step is 'Set permissions'. The main content area has three radio button options: 'Add user to group' (selected), 'Copy permissions', and 'Attach policies directly'. Below these is a table titled 'User groups (1/1)' with a search bar and a 'Create group' button. The table has columns for 'Group name', 'Users', 'Attached policies', and 'Created'. One group, 'sk_s3', is listed with 0 users and policies 'AmazonDMSRedshiftS3Role, AmazonS3...'. At the bottom, there is a 'Set permissions boundary - optional' section and 'Cancel', 'Previous', and 'Next' buttons.

Group name	Users	Attached policies	Created
sk_s3	0	AmazonDMSRedshiftS3Role, AmazonS3...	2026-01-21 (5 hours ago)

Then we need to review all the things and create the user. We can retrieve the password as a csv document if we want.

The screenshot shows the 'Retrieve password' step of the AWS IAM 'Create user' wizard. A green success banner at the top states 'User created successfully'. The left sidebar indicates the current step is 'Retrieve password'. The main content area has a section titled 'Retrieve password' with a sub-section 'Console sign-in details'. This section contains the 'Console sign-in URL' (https://722560224322.signin.aws.amazon.com/console), 'User name' (sicky_iam), and 'Console password' (masked with asterisks and a 'Show' button). There is also a link for 'Email sign-in instructions'. At the bottom, there are 'Cancel', 'Download .csv file', and 'Return to users list' buttons.

Console sign-in URL
https://722560224322.signin.aws.amazon.com/console

User name
